

Diving Package

6 nights 5 days diving

If there's one word to describe the diving around Machangulo and Inhaca Island it would have to be 'abundance'. It's extraordinary and best of all undiscovered. The reefs are populated with an abundance of fish – both in numbers of fish and species of fish. They're covered with an abundance of healthy, gloriously-coloured corals.

The topography is made up of walls, canyons, amphitheatres, caves and swim throughs, all on a grand scale. There are at least three wrecks ranging from shallow to deep with a rumoured submarine still to be found, and like the reefs, bursting with an abundance of marine life.

For guests to fully benefit from the diving in area, we recommend they have advanced open water qualification, as the exceptional dive sites range between 24m-35m. All diving will be led by Rupert and Jenny from Back to Basics Adventures who have a wealth of knowledge and experience in the area. Guest will also be able to upgrade their qualifications during their stay.

Shark research forms the cornerstone of protecting the biodiversity and ecosystems in our area.

Guests require Dive Insurance and PADI guidelines are followed for diving ages.
